SUBJECT: DCI's Program for Deans, 14 April 1986

1. Thank you for helping to make the recent visit of a dozen deans to Headquarters such a huge success. Comments received from the participants indicate that this was one of the most productive programs ever. Many came with a few reservations about the CIA and some of the things we do, but left with a better understanding of our programs and activities.

2. In the critical area of improving the relationships between components of the Agency and the institutions represented by these deans, we can expect considerable progress if the results of the dean's conference conducted last fall are any indication.

3. Again, we thank you for your participation in this important initiative.
